Organisational context

Neami National is a community-based recovery and rehabilitation service supporting people living with mental illness and psychiatric disability to improve their health, live independently and pursue a life based on their own strengths, values and goals.

We provide services in over 50 locations, ranging from the inner-city and suburbs to regional and remote parts of Australia.

Our vision is for full citizenship for all people living with a mental illness in Australian society. Our mission is to improve mental health and wellbeing in local communities across the country.

We believe that recovery is an individual process and that with the right kind of support everyone can live a life based on their own strengths, values and goals for the future.

We use an approach called the Collaborative Recovery Model (CRM) to support people through our services. The CRM assists individuals to identify their personal strengths and values, to set goals and then helps them make progress towards achieving them.

We are a smoke free organisation.

Position overview

The Senior Practice Leader works in close partnership with the Service Manager to provide leadership, practice development and coaching sessions to service delivery staff. This position provides instruction and guidance on practice issues to a number of Community Rehabilitation and Support Workers and Peer Support Workers, applying coaching and mentoring principles. In addition, you will work closely with homelessness and mental health service clinical case managers and other community partner organisations in order to deliver the best possible comprehensive service to consumers.
In 2010, Neami National and the St. Vincent’s Assertive Health Outreach Team established the Inner City of Sydney Assertive Outreach service called Way2Home. Way2Home implemented a new approach to ending homelessness for some of the most vulnerable rough sleepers in the City of Sydney Local Government Area (LGA). Between April 2010 and Nov 2014, Way2Home housed 225 rough sleepers into permanent housing. This success saw the Neami Way2Home team refunded as part of the Going Home Staying Home reforms and has seen an expansion of service capability. The current recruitment is building the capacity of the Way2Home team to be able to meet the growing demand for assertive outreach supports in the City of Sydney Local Government Area. To achieve this, Way2home works very closely with the St Vincent’s Hospital Homeless Health Team, Family and Community Services, the City of Sydney Council, Housing Providers and other specialist Homelessness Service providers to provide health, housing, rehabilitation & recovery support to rough sleepers in the City of Sydney LGA.

The Way2Home Neami National team consists of a service manager, two senior practice leaders, an intake officer, a team of community rehabilitation and support workers, peer support workers, and an operational support worker.

Regular foot patrols are conducted to identify homeless people most in need. The assertive outreach model is aimed at providing integrated services that focus on consumer identified goals, improved health outcomes and transition from homelessness to safe, secure and sustainable long-term accommodation. We persist and work with people over the medium to long term supporting people to maintain their tenancies once they are in housing.

The Senior Practice Leader works in close partnership with the Service Manager and provides practice development and coaching to service delivery staff including Community Rehabilitation and Support Workers and Peer Support Workers.
